

THANK YOU DR. ROSENTHAL

Lawrence Rosenthal, MD, PhD, Director of Cardiac Pacing and Electrophysiology at UMass Memorial Medical Center, retired yesterday after 28 years of dedicated service to UMass Memorial Health.

Dr. Rosenthal has been a pioneer in advancing treatments for heart rhythm disorders and stroke prevention, making a profound impact on both patients and colleagues. He was the recent recipient of the Heart and Vascular Medical Professional Heart of Gold Award from the American Heart Association (AHA). The award was in recognition of Dr. Rosenthal's unwavering commitment to improving health outcomes and advancing lifesaving initiatives in Central Massachusetts.

With his innovative work in atrial fibrillation ablation and electrophysiology, Dr Rosenthal has revolutionized the way we treat heart rhythm disorders. His introduction of pulsed field ablation, a groundbreaking and safer heart rhythm treatment, has brought new hope to countless patients in Central Massachusetts. He spearheaded multiple clinical trials and established UMass Memorial as a hub of cardiovascular innovation. Dr. Rosenthal also proudly served as the fellowship director of the Cardiac Electrophysiology Fellowship for many years. For his service to his Department as an educator, clinician and scientist, Dr. Rosenthal was recently awarded the rank of Professor Emeritus.

Thank you Dr. Rosenthal, and very best wishes on your retirement.
