

# Risk Assessment Tool

---

**Are you at risk for breast cancer?** If you answer yes to any of the questions below, you may be at increased risk. Call the UMass Memorial High-risk Breast Cancer Screening Program at 508-334-6200 for more information and to schedule an in-depth, personalized risk assessment.

- Do you have a first-degree (mother, sister or daughter) relative with breast cancer?
- Do you have a relative diagnosed with both breast and ovarian cancer?
- Do you have a relative diagnosed with breast cancer in both breasts?
- Do you have several relatives in the same lineage diagnosed with breast cancer?
- Do you have several relatives diagnosed with breast cancer at young ages, especially before onset of menopause?
- Do you have any men in your family diagnosed with breast cancer?
- Have you ever had a breast biopsy and been told the cells were atypical?
- Have any of your family members ever been told they are positive for the breast cancer gene?
