

Our Inpatient Pediatric Physician Team

*In partnership with UMass Memorial
Children's Medical Center*

HealthAlliance Hospital is a not-for-profit, full service, acute care hospital that serves the communities of North Central Massachusetts and Southern New Hampshire. As a member of UMass Memorial Health Care, HealthAlliance Hospital offers direct access to the advanced medical technology and specialty services that are part of the region's academic medical center. The HealthAlliance system includes a hospital with services on two campuses in Leominster and Fitchburg, a regional cancer center, outpatient physical therapy centers, a home health and hospice agency, and primary and specialty care physician practices. For more information about HealthAlliance Hospital, visit www.healthalliance.com.

Experts in caring for kids

Who We Are

The HealthAlliance Hospital Pediatric Hospitalists are highly qualified, board-certified pediatric clinicians who specialize in providing 24-hour, in-house coverage for pediatric patients who require hospitalization. The pediatric hospitalists also attend deliveries and provide newborn care. Our pediatric hospitalists are available immediately to treat clinical conditions as they arise and to provide ongoing evaluation and monitoring as needed.

Coordinated Care

Our pediatric hospitalists provide family-centered care and coordinate the care of your child with your outside pediatrician, keeping him or her informed of the child's condition, progress, and plan for discharge. If transfer of your child should become necessary, the pediatric hospitalist will discuss this with you and coordinate with nursing and case management to transition your child to another facility.

Here For Your Child

Beginning in September 2010, our pediatric hospitalists will be available to care for your child 24 hours a day, 7 days a week.

Any Questions?

During your child's hospitalization, you can reach a pediatric hospitalist by contacting your child's nurse.

Meet Our Pediatric Hospitalists

A pediatric hospitalist is a pediatrician who specializes in hospital-based pediatric services. They have completed a three year residency in general pediatrics, are board-certified or board-eligible in pediatrics, and also have NRP, PALS, and BLS certifications. In addition, all pediatric hospitalists have experience in newborn resuscitation, stabilization, and transport.

Katy-Ann Hannigan, DO is board certified in Pediatrics.

She earned her medical degree from Des Moines University at the Osteopathic Medical Center and completed her residency at St. John Hospital and Medical Center.

Nicole Sheanon, MD is board certified in Pediatrics.

She earned her medical degree at the University of Cincinnati College of Medicine. Nicole was also the Chief Resident in the Department of Pediatrics at UMass Memorial Medical Center.

Anne Josephs, MD is board certified in Pediatrics. She

received her medical degree from UMass Medical School and completed her residency at Baystate Medical Center, the Western Campus of Tufts University School of Medicine.

Linda George, MD is board eligible in Pediatrics. She

received her medical degree from SUNY Downstate College of Medicine and completed her residency at Baystate Medical Center, the Western Campus of Tufts University School of Medicine.
